## HE QUITSTHE CABINET

Secretary of the Navy Long Has  
Tendered His Resignation.

### STEPS DOWN AND OUT ON MAY DAY.

Congressman Moody of Massachusetts  
Named as His Successor and  
Has Accepted the Portfolio.  
Comment on the Change.

Washington, March 10.—The third change in the cabinet of President Roosevelt occurred Monday, when Secretary Long submitted his resignation in a graceful letter, it being accepted in one equal felicitous by the president. The change was made complete by the selection of Representative William Henry Moody, of the Sixth congressional district of Massachusetts, as Mr. Long's successor in the navy department. This change has been looked for for a long time. Mr. Long had intended to retire at the beginning of the late President McKinley's second term, but he consented to remain until certain lines of policy in which he was involved were more satisfactorily arranged.

When President Roosevelt succeeded, though anxious to return to private life, a strong feeling of loyalty to

NEW SECRETARY, HON. W. H. MOODY.  
wards Mr. Roosevelt induced the secretary to defer his retirement until it was convenient for the president to make a change. Recently Mr. Long has been in Massachusetts making arrangements with his old legal connections to re-enter the practice of law, and he has had his house at Hingham put in order for occupation.

When Mr. Long entered the cabinet originally, he was an active member of the firm of Hemingway & Long, a well-known legal firm of Boston. He always has maintained a silent connection with the concern, and will again become an active partner.

Mr. Moody's selection for the post of secretary of the navy was the outcome of an interesting contest. There were no less than a half dozen aspirants, but the struggle finally narrowed down to the two representatives in congress, Mr. Fose of Illinois, chairman of the navy committee of the house, who had the energetic support of his western colleagues, and Mr. Moody, for whom Senator Lodge made the winning fight.

#### In the Senate.

Washington, March 10.—When the senate convened, a joint resolution was passed authorizing the secretary of the navy to donate to the Minnesota historical society the steering wheel of the former United States ship Minnesota.

At 2 o'clock the ship subsidy bill was taken up and Mr. Vest (Mo.) made a speech against the measure.

Mr. Vest said that 73 per cent of subsidiary on the Atlantic side would go to the International Navigation company. The bill would take money out of the treasury without giving any value in return.

Senator Vest said there was no subsidy paid by Great Britain to her ships that dominate carrying trade of the world. He could make the statement and challenge successful contradiction that 53 per cent of the carrying trade in the hands of England is done by her iron tramp steamers who never receive a cent from that country. The increased mail pay given by England he denied was subsidy or for the purpose of extending her commerce, but was given for political and military reasons she cannot escape. It was an abuse of the word "subsidy" to call it such.

#### In the House.

Washington, March 10.—Governor Odell of New York was on the floor of the house renewing old acquaintances when that body met at noon. Mr. Burton (O.), chairman of the river and harbor committee, reported the river and harbor bill and gave notice that

he would call it up after the disposal of the postoffice appropriation bill. The senate amendments to the diplomatic and consular appropriation bill were non-concurred in and the bill sent to conference.

Mr. Grosvenor (Ohio) offered a resolution tendering the thanks of congress for his McKinley memorial address and asked immediate consideration for it. Mr. Richardson (Tenn.) thought the resolution could first be considered by a committee, and upon his objection it was referred.

The house then went into committee of the whole and the bill to classify the rural free delivery service and place the carriers under the contract system was read for amendment under the five minute rule.

#### UNCONSTITUTIONAL

The Supreme Court Decides the Illinois Anti-Trust Statute.

Washington, March 10.—The United States supreme court decided the Illinois anti-trust statute to be unconstitutional because of the provision of the law exempting agricultural products and live stock from the operations of the law. The decision was rendered in the case of Thomas Connelly and others against the Union Sewer Pipe company of Ohio and was delivered by Justice Harlan.

#### Microbes In Paris.

Paris, March 10.—Dr. Emil Roux of the Pasteur institute; Dr. Pozzi, who performed the famous operation upon Sarah Bernhardt, and Dr. Bergeron, have been studying the question of microbes in Paris with the most astounding results. They assert that at the great hospital known as the Hotel Dieu, there are 40,000 microbes to a square yard, and that the La Petite hospital here, almost twice that number to the square yard. The bourse is also badly infected, say these doctors, having about 10,000 microbes per yard. The physicians say that the yelling of the traders makes the very air impure there, and although they have no strict data their opinion is that the atmosphere of the New York Stock Exchange and the Chicago board of trade must be just as bad.

#### Stone Abduction Case.

Washington, March 10.—It is again specifically stated here that no demand has been made upon Turkey in connection with Miss Stone's case. The action taken by Mr. Voishman, as reported from Constantinople, was simply to conserve any rights which might be developed hereafter and his note to the Turkish government amounted to nothing more than a statement that the United States government intended to make a thorough investigation of the incidents connected with the kidnaping and at the conclusion of that investigation would look for redress to the party upon whom responsibility was fixed. It may be added that the whole trend of evidence so far is very strongly against the Bulgarians and not against the Turks.

#### Stewart Fife on Trial.

Savannah, Mo., March 10.—Stewart Fife's trial for the murder of Frank W. Richardson, his former associate in business here, is on. Fife has lost much of the calmness that he displayed when he arrived from North Yakima, Wash., where he was arrested two months ago. Several stories of new and startling developments that are to come out at the trial have been circulated, one of them being to the effect that Fife's lawyers will implicate another man in the murder. Mrs. Richardson, widow of the dead man, who was acquitted recently of complicity in the murder, will appear as a witness for the defense, while her two young sons will be used as witnesses for the state.

#### Tolstoi's Feat.

Paris, March 10.—Count Tolstoi, who has been so seriously ill of late, has given a singular proof of his literary conscientiousness. Previous to his illness he had sent to a Paris review an article which will appear shortly. On the very night when he and those around him believed that he was dying, it occurred to him that he had omitted some important point in the article. His strength rallied as though for a last effort and he dictated the correction.

#### Colombian Rebels Cornered.

Washington, March 10.—The United States minister to Colombia reports to the state department under date of March 3 that during the preceding week the government troops had steadily advanced, occupied important positions near Bogota, which had been vacated by the revolutionary forces, who are understood to be in a desperate situation and seeking an opportunity to escape.

Cape Town, March 10.—Cecil Rhodes passed a good day, but the condition of his health is still causing anxiety.

## BOSTON'S BIG STRIKE.

Teamsters and Others Out to the Number of Ten Thousand.

#### SHIPPING INTERESTS PROSTRATED.

Freight Handlers, Freight Clerks and Longshoremen Involved—Sealing Crews Also Quit—Brewers at Cincinnati.

Boston, March 10.—The strike of the freight handlers of this city, which according to votes passed by the labor unions, threatens to involve 10,000, was begun early Monday. The team drivers' union, embracing 6,000, led off. Other unions followed and the strikers claim that by night fully 10,000 were out. The strike grows out of the Brine Transportation company's trouble with its teamsters, which began several weeks ago, but was precipitated by the refusal on Saturday of members of the Freight Handlers' unions to take care of merchandise carted by non-union teamsters employed by the Brine company.

The Team Drivers' union embraces nearly all the drivers handling freight in the city. In view of the threatening aspect of the strike, the state board of arbitration placed itself in touch with all concerned in the trouble. The members of the board were not without hope that the opposing parties could be brought together.

#### Strike at Norfolk.

Norfolk, Va., March 10.—The strike situation remains unchanged. Cars are running manned by non-union men and guarded by soldiers. The strikers claim that they submitted their case to the arbitration committee with the understanding that the decision would be accepted provided there was nothing in it contrary to their oath to the union. The members of the committee deny that there was any such understanding and the matter was turned over for settlement with absolutely no reservation. Public sentiment seems to be deserting the strikers.

#### Crew on Strike.

St. Johns, N. F., March 10.—The striking crews of the sealing steamers left their ships at midnight Sunday, rendering it impossible for the vessels to sail. A complete deadlock prevails. The men are jubilant over the success of their movement and have telegraphed to other leading centers appealing to the men there not to join their ships. The crews here, with their belongings, line the streets, but there is no disorder. As the weather is fair, the men are not seriously incommoded by being without shelter. Business is practically suspended.

#### Cincinnati Brewers.

Cincinnati, March 10.—The lockout of the brewery workmen of Cincinnati, Covington and Newport, was not adjusted at the noon conference. Telegrams have been received from labor organization throughout the country refusing to endorse the boycott of the United Brewery workmen and it is thought that an arrangement will be reached.

#### Attorney Patrick's Defense.

New York, March 10.—Monday's session of court marked the beginning of the eighth week of the trial of Albert T. Patrick, the lawyer, accused of the murder of William M. Rice, the millionaire in this city on September 23, 1900. Robert H. Anrich, who has charge of the autopsy department of the city morgue, was the first witness. He assisted at the autopsy in Rice's body. He was not permitted to answer a question as to whether Dr. Donlin said at the end of the post mortem, "the old man's time had come. He died of old age and that is all there is to it." Dr. E. A. Lee, a surgeon, who said he had administered chloroform about 5,000 times, was then called.

The odor of the chloroform, he said, was a lasting one. The tendency of the drug was to excite the person to whom it was given. In the circumstances described by Charles F. Jones on the witness stand, the witness would expect the patient to struggle and knock off the bedclothes. Jones said Rice did not move.

#### Bishop Spaulding's Successor.

Denver, March 10.—The matter of succession to Bishop Spaulding of the Episcopal diocese of Colorado, who died on Sunday at Erie, Pa., is already settled by the rules of the church. Rev. Charles S. Olmstead having been elected coadjutor last January. The affairs of the diocese will be administered by the standing committees of the church until May 1, when Mr. Olmstead will be consecrated bishop. He is at present rector of St. Asaph's church at Bela, Pennsylvania.

#### IRISH HOME RULE.

Nationalists Regard the Situation as Most Promising.

London, March 10.—The home rule question is coming rapidly to the front again. The Irish Nationalists regard the situation as much more promising than at any time since the retirement of Mr. Gladstone. They feel firmly convinced that a couple of years of genuine unconstitutionalism in Ireland will land Sir Henry Campbell-Bannerman and a fighting Liberal party back into power, with home rule as the first plank in its platform. So far as the Irish question is concerned, at present, however, Lord Rosebery undoubtedly has the country behind him. Campbell-Bannerman's home rule policy is supported by two or three influential Englishmen, such as John Morley, Sir William Harcourt and Earl Spencer. Meanwhile, recent events have tended to restore the old friendly relations between Irish Nationalists and the English Radicals. But there will be no formal alliance as there was in Parnell's time. The policy of the Irishmen is to keep aloof from both English parties and accept whatever benefits for Ireland either may propose.

#### National League Muddle.

New York, March 10.—With the opening of the National League baseball season only a little more than a month away, there are on the surface no indications that the rival factions are making any effort toward getting together. Tuesday, unless there is another postponement, the question of jurisdiction will be argued in the supreme court and the baseball world may then learn something more definite of the situation. Just when the court will render a decision in the case it is impossible to say. It may be delayed for weeks, although that is hardly probable. That the club owners contemplate action of some nature is shown by the fact that they all are making preparations to begin the season, but not one move has been made to bridge over the chasm between the "fours."

#### EXPLOSION

In an Iowa Powder Plant Mangles Half Dozen Employees.

Keokuk, Ia., March 10.—The E. I. Dupont De Nemours and company's powder plant, five miles west of this city, was seriously damaged by an explosion. Two men were killed outright, a third will die and three others are seriously injured. The dead: Frank Schneider, blown to pieces; Egbert Erickson, head blown off. Lewis Leake was injured in the neck and will die. The explosion was in mill No. 10%, and the cause is unknown. The damage to the mill will reach about \$7,000.

#### Prince Henry in Philadelphia.

Philadelphia, March 10.—Prince Henry arrived in Philadelphia at 10:20 o'clock. He was met at Broad street station by Mayor Ashbridge and the citizens' committee and escorted to the mayor's office in city hall. The freedom of the city and the mayor's address of welcome were presented to the royal visitor, after which he was driven to Independence hall and thence to Cramp's shipyard.

The prince finished his American tour in this city, and for the brief space of five hours was the guest of this city. His reception was most cordial and his welcome heartfelt. From the moment when the special train bearing the imperial visitor steamed into the Pennsylvania railroad station until the departure the popular demonstration was hearty and spontaneous.

#### Sugar Convention and Uncle Sam.

Washington, March 10.—Respecting a Brussels dispatch received in London as to the attitude of the United States government toward the sugar convention just agreed upon in the Belgian capital by the representatives of the beet sugar powers, it is stated here that this convention requires no action whatever on the part of the United States. As this country produces no bounty-aided sugar, it was not directly concerned in the proceedings at Brussels and was unrepresented there. But indirectly it is realized that the results of the conference might be of great importance to the United States as affecting the solution of the Cuban customs problem and influencing the treasury receipts through the abolition of the present countervailing duties.

#### Presidential Appointments.

Washington, March 10.—The president sent the following nominations to the senate: Postmaster: West Virginia—James F. McCasky, New Martinsville, Indiana—William E. Downs, Edinburg; Evan H. Ferree, Marion, Treasury: Walter A. Wiley, Ohio, second Lieutenant in the revenue cutter service.

## BOERS SCORE HEAVILY

General Methuen and a Large Force Captured After a Hot Fight.

#### MANY BRITISH KILLED AND WOUNDED

Four Guns, Hundreds of Prisoners and All the English Baggage Taken by the Burghers. Story of the Victory.

London, March 10.—General Methuen and four guns have been captured by General Delarey. General Methuen was wounded in the thigh. Three British officers and 38 men were killed. Five British officers and 72 men were wounded. One British officer and 200 men are missing. The fight in which General Methuen was captured occurred before dawn March 7 between Winburg and Lichtenburg, Orange River colony. The British force numbered 1,200 men. The Boers captured all the British baggage. General Methuen is retained as prisoner. The text of Lord Kitchener's dispatch announcing the capture of General Methuen is as follows:

"Pretoria, Saturday, March 8.—I greatly regret to have to send you bad news of Methuen. He was moving with 900 mounted men, under Major Paris, and 300 infantry, four guns and

GENERAL LORD METHEUEN.  
a pompon from Winberg to Lichtenburg, and was to meet Greenfell, with 1,300 mounted men, at Bovirainesfontein. Friday morning early he was attacked by Delarey's force between Twee-Bosch and Palmietknill. The Boers charged on three sides.

"Five hundred and fifty men have come in at Mariboga and Kraaipoan. They were pursued by the Boers four miles from the scene of the action. They report that Methuen and Paris, with the guns, baggage, etc., were captured by the Boers. Methuen, when last seen was a prisoner. I have no details of the casualties, and suggest delaying the publication till I can send definite news. I think this sudden revival of activity on the part of Delarey is to draw off the troops pressing Dewet."

In a second dispatch dated Sunday, March 9, Lord Kitchener says: "Paris has come in at Kraaipan with the remainder of the men. He reports that the column was moving in two parties. One, with the ox wagons left the Twee-Bosch at 3 a.m. The other with the mule wagons started an hour later. Just before dawn the Boers attacked. Before reinforcements could reach them the rear guard broke. In the meantime a large number of Boers galloped up on both flanks. These at first were checked by the flank parties, but the panic and stampede of the mules had begun, and all the mule wagons, with a terrible mixture of mounted men, rushed past the ox wagons. All efforts to check them were unavailing. Major Paris collected 40 men and occupied a position a mile in front of the ox wagons, which were then halted. After a gallant but useless defense the enemy rushed into the ox wagons and Methuen was wounded in the thigh. Paris, being surrounded, surrendered at 10 a.m. Methuen is still in the Boer camp."

Then follows the numbers of the casualties as already cabled. The killed include Lieutenants G. R. Vening and T. P. W. Nesham of the Royal artillery, who were both killed while serving their guns with case shot. As Lord Kitchener announced that Major Paris had surrendered and also telegraphed that he had reached Kraaipan with the remainder of the men, it may be inferred that the Boers subsequently released the major and his companions.

Everett D. Stark, 72, prominent attorney and writer on political economy, is dead at Elyria, O.

Miss Alice Roosevelt, with several friends, left for a visit to General and Mrs. Leonard Wood at Havana.

HERE'S a pointer for Mason County farmers:

Thirty years ago J. T. Hackley, of Boyle County, paid a negro five cents each for transplanting 300 black locust trees. He is having them cut now for posts, and, it is said, they will average in value to the amount of from \$6 to \$10. They cost him \$15, and are worth at least \$1,800.

It doesn't take a locust tree that long to mature. A farmer can realize on them in much less time.

### KENTUCKY OIL FIELDS.

Now Looked Upon as the Most Important Producing Section in the Country.

[Exchange.]

Pittsburg oil producers are of the opinion that the Kentucky oil development, at present not the largest, is the most important new field in sight, and as a result the State will for the first time in its history be thoroughly tested as to its oil producing qualities, a determined effort in this direction being at present under way. Says the Pittsburg Times:

"One of the features of the new Kentucky fields is that in every case oil has been found at a comparatively short distance below the surface. The one last reported from Barboursville is only 175 feet deep. None of the wells in Bath County are more than 450 feet deep, and oil was struck in paying quantities in most of them at a depth of about 375 feet. The closeness of the oil to the surface is one of the things that augers well for a thorough investigation of the oil territory in Kentucky, as wells can be put down at a comparatively small cost, in many instances not exceeding over \$400 to \$700. The cost of drilling wells in Pennsylvania, Ohio and West Virginia was one of the discouraging features of the development of these States. At the present time it is estimated that Kentucky is producing in the neighborhood of 4,000 barrels a day.

"In none of the many fields that have been developed, outside of Pennsylvania, Ohio, West Virginia and New York, since the discovery of oil in America, has there been found the same quality of oil, which is known among the oil men as Pennsylvania oil, as was found in this State. The Kentucky oil is, however, of about the same quality as that produced by this State, and this is one of the reasons why so much importance is attached to the development in Kentucky."

Mrs. Elizabeth A. Willett, housekeeper at the Phoenix Hotel, Lexington, fell down stairs last Friday at the hotel and severely bruised her right hip. Mrs. Willett formerly resided in Maysville. Speaking of the accident, the Leader says: "Mrs. Willett was on the eve of descending the back stairs when her foot slipped and she fell thirteen steps. Her head struck the stairs, but fortunately it was not cut or seriously bruised. She struck her arms as she fell also, but the bruise to the hip was her worst injury. While able to sit up, she is not able to leave her bed and may not be for several days yet."

# A WHITE SALE.

Usually when merchants want to emphasize a special sale of any kind they offer to give more for the money than you can possibly get elsewhere. Now we propose to do just the reverse. ## THE LATE MRS. PILLSBURY.

Tribute to a Former Resident of Maysville Who Passed Away at Bowling Green Feb. 26th.

[Bowling Green Times-Journal Feb. 27th.]

Mrs. Zerilda Pillsbury died yesterday evening at 6:30 o'clock at her home on Kentucky street of blood-poisoning, surperinduced by a fall she received about six weeks ago. She had been bed-ridden since that time and necessarily very much enfeebled and blood-poisoning finally set in hastened the end.

Mrs. Pillsbury was eighty-three years of age and one of the oldest and best known and best beloved among Bowling Green's many good women. She was born in Maysville, Ky., but lived in this city the greater part of her life and was the widow of the late Judge Josiah Pillsbury, who preceded her to the grave seventeen years ago.

Mrs. Pillsbury's early life was an active and a useful one, she having been engaged with her husband, Judge Pillsbury, for many years in teaching school in this city. For a long time Pillsbury High School was one of our most popular educational institutions, and it was here that many of Bowling Green's most prominent citizens obtained their early training in an educational way. She died in the same house where she had spent so many years in the useful vocation of teacher.

Mrs. Pillsbury, in her younger days, knew personally and well, Major Henry T. Stanton, the Kentucky poet, who wrote "The Moneyless Man," and other well known poems, and she enjoyed the distinction of having taught him the alphabet.

She leaves surviving her only two children, Keith and W. E. Pillsbury, the well known insurance men of this city.

While her friends have known for some time that her illness was of such a nature as to give no hope of ultimate recovery, they were sincerely grieved and pained upon hearing that the end had come.

She had been for years an earnest and devoted member of the First Presbyterian Church. The funeral services will be conducted from the residence to-morrow morning at 10 o'clock by Dr. Wm. Irvine and the burial will be in Fairview Cemetery. The pall-bearers will be: Jas. Cuthbertson, I. D. McGoodwin, Judge W. L. Dulaney, Major R. W. Covington, J. Whit Potter, Virgil Garvin, Thos. Pollard and W. S. Ragland.

"The Minister's Son" a Splendid Play.

In "The Minister's Son" the management of the opera house has an attraction to-night that they can and do guarantee to their patrons as first-class in every respect. The papers of Louisville, where the company has just closed a week's engagement, were loud in their praise of this excellent play and general excellence of the company. It is a four act pastoral comedy drama, and is a good companion play to "Lover's Lane." The role of Simon Ray, the "Minister's Son," is played by W. B. Patton, who is a comedian of the Sol. Smith Russell type; quaint, original and always natural in his methods. Theater-goers will relish this beautiful play, and a large house should be in evidence to-night.

There is no improvement in Mr. W. B. McAtee's condition.

Mrs. T. G. Calvert is seriously ill at the home of her sister, Mrs. Thomas F. Kelly, in Lexington.

Mr. James E. Threlkeld and family will take up their residence at the suburban home of Mr. and Mrs. John W. Power about the first of April.

Congressman Kehoe has filed the petition of John W. Finnell Post, No. 110, Grand Army of the Republic, of Grayson Ky., favoring the construction of war vessels at the Government navy-yards.

The State Senate Monday passed an appropriation bill giving the Eastern Insane Asylum, at Lexington, \$79,639; the Central Asylum, at Lakeland, \$41,000, and the Deaf and Dumb Institute, at Danville, \$60,000.

In a communication R. A. Burris, of Christian Colony, Rainy River, Ont., states that a fine log school house has been completed, and that D. W. Manley, who went from Mayslick, Ky., preached the first sermon in it.

It is said to be the intention of Marmaduke B. Bowden, formerly of Louisville, to enter the ministry of the Methodist Church. It is probable he will ask for admission to the Louisville Conference of the Methodist Church, South, at an early date. His friends predict a fine future for him in the pulpit.

In the fall of 1899, Mr. R. A. Carr levied on a stallion belonging to Mr. H. R. Wood, of Helena, to secure the payment of an account of \$11.95. The case has been in the courts ever since, and the cost of keeping the horse now amounts to about \$600. Last week the case reached Judge Harbeson and he sent it back to the Quarterly Court, and an order to sell the horse will now be carried out. The judgment and costs foot up about \$800.

It is rumored that Prof. Henry Lloyd, of Chicago, has been selected to succeed Prof. R. H. Ellett in the chair of mathematics in Kentucky University. The following note is taken from the Christian Guide, of Louisville: "Prof. R. H. Ellett has resigned as professor of mathematics in Kentucky University, and we understand that Prof. Henry Lloyd, of Chicago, is to succeed him in September." Mr. Lloyd is a son of Mr. Evan Lloyd, of Germantown, and a brother of Mrs. John C. Adamson, of this city.

## DIED MONDAY.

Mrs. Arthur Haughey, of Fern Leaf, Passes Away After a Lingering Illness.

Mrs. Ada Haughey, wife of Mr. Arthur Haughey, died Monday morning at 10:35 o'clock at their home near Fern Leaf, of pulmonary troubles. Her health had been failing the last year or two. Last summer and fall she spent several months at Asheville, N. C., but instead of improving she continued to decline, and a month or so ago realizing that her case was hopeless she returned in order to spend her last days in her home, among friends and loved ones.

Mrs. Haughey was a daughter of Mr. David Mannen and was about forty years of age. Her husband survives, and she leaves a wide circle of friends.

The funeral will take place Wednesday morning at 11 o'clock at the Minerva Christian Church.
